Begin with the Basics....String Basics!

STRING BASICS™

STEPS TO SUCCESS FOR STRING ORCHESTRA

by Terry Shade and Jeremy Woolstenhulme
with Wendy Barden

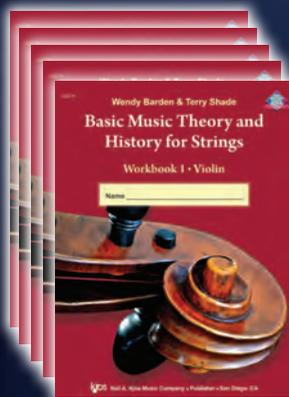

A comprehensive method for beginning string classes. Utilizing technical exercises, music from around the world, classical themes by the masters, and original compositions, students will learn to play their string instruments in an orchestra. Step-by-step sequences of instruction will prove invaluable as students learn to hold their instrument and bow, finger new notes, count different rhythms, read music notation, and more.

Basic Music Theory and History for Strings

by Wendy Barden & Terry Shade

This visually captivating workbook features supplements designed to support the National Core Arts Standards. Contents connect 1st year string students with beginning theory, notation, and ear training concepts, along with historical facts related to string instruments, the development of the orchestra, orchestral composers, and more. Each instrument has its own book.

String Basics utilizes **Interactive Practice Studio** a unique and trendsetting downloadable resource containing a wealth of supporting biographical, historical, and cultural information; photos, maps, artwork, audio samples, videos and more. It's designed with your students in mind.
Fun - Inspiring - Motivating!

TECHNIQUE & MUSICIANSHIP

Designed for musicians who have completed any second level method, this book features scales, thirds, and arpeggios; technique, articulation, and melodious etudes; plus excerpts from the classical repertoire and full-band chorales in 16 major and minor keys. With emphasis placed on specific musicianship skills, plus options for students at various levels of ability, this book goes above and beyond technique books of the past.

Whether used in private lessons or in a group, *Tradition of Excellence: Technique & Musicianship* is sure to improve technical ability and enhance artistic sensitivity for years to come.

TRADITION OF EXCELLENCE: CONCERT TIME

by Bruce Pearson and Ryan Nowlin

Concert Time, by Bruce Pearson and Ryan Nowlin, is a collection of twelve songs written for beginning or young band. An excellent compilation and variety of music styles. Concert Time includes festival pieces, concert marches, classical transcriptions, lively lighter songs, and originals. With accessible, grade-appropriate rhythms, highlights also include clarinets staying below the break in each song, melodies are written in every section, and the Drums, Mallets, Auxiliary Percussion, and Timpani are all in one book. Each piece has reinforced orchestration throughout the ensemble, and were composed or arranged with the young player in mind and will prove to be accessible and musically satisfying to the player and audience. Each concert time part book includes a Fingering Chart and Preparatory Melodies. Concert Time is part of the Tradition of Excellence series and is an outstanding addition to any band curriculum.

JAZZ

First Place for Jazz™ Introductory Method for Jazz Ensemble by Dean Sorenson

First Place for Jazz is the introductory method you need to implement your jazz ensemble curriculum.

The book is divided into three sections by key: concert B \flat , F, and E \flat . Within each section the major, Mixolydian, Dorian, and blues scales and correlated chords of that key are introduced through Jazz Starters, Rhythm Section Spotlights, and Rhythm Sectionals. These enrichments prepare students to play each of the 12 original grade 1–2 Jazz Ensemble Charts and Lead Sheets. This unique organization combined with a host of innovative features including the Kjos Interactive Practice Studio and availability in SmartMusic, will provide your band with the tools it needs.

First Place for Jazz is a comprehensive jazz curriculum built from the ground up. Suitable for group or individual instruction. Don't deny yourself, or your students this opportunity to succeed!

STRING METHODS

STRING BASICS™

by Terry Shade and Jeremy Woolstenhulme, with Wendy Barden

String Basics: Steps to Success for String Orchestra is a comprehensive method for beginning string classes. Utilizing technical exercises, music from around the world, classical themes by the masters, and original compositions, students will learn to play their string instruments in an orchestra. Step-by-step sequence of instruction will prove invaluable as students learn to hold their instrument and bow, finger new notes, count different rhythms, read music notation, and more.

Mariachi Mastery carefully introduces students to the exciting world of mariachi through easy-to-use, pedagogically-sound materials and features, includes flexible instrumentation.

The **Mariachi Mastery Songbook** by Jeff Nevin is a collection of 35 songs and exercises correlating with **Mariachi Mastery** to help mariachi students build repertoire and become better musicians. These are some of the best known and most beloved songs from Mexico that are as much a delight to play as to listen to. Can be used with the method, or as a repertoire collection for any Mariachi ensemble.

Easy Arrangements of Classics for Full Orchestra

Joh. Siebenhüner Musikverlag presents a library of easy classics expertly arranged for full orchestra by Alfred Pfortner. 44 selections range in grade from 2 to 3½. Special considerations have been taken in all parts to ensure playability by less advanced musicians. All pieces are flexibly scored so that they can be played by both full ensembles, and smaller groups of varied instrumentation. Great material for student or community groups, and sure to be a hit with every audience!

Perfect for School and Community Orchestras!

- Most of the pieces have been shortened and adapted to suit school and amateur orchestras.
- There is a full score for most editions.
- All parts are provided with rehearsal numbers to make rehearsals easier.
- Metronome suggestions are merely guidelines.
- All pieces are also playable in smaller groups (such as violin and piano!).
- If French horns and violas are available the pieces do not need a piano accompaniment.
- Exact bowings are provided for the strings.
- The parts for 1st violin extend as far as the third position. Only in a few individual cases do they range as far as the 5th position, and in such cases these notes are always given in the lower octave, too.
- The 2nd violin parts usually remain in the 1st position. Whenever they go up to the 3rd position the notes are also provided in the lower octave.
- The parts for cello, which were usually in the tenor or alto clef, have been written in bass clef.
- For woodwind and brass parts special attention has been paid to using a range suitable for students and amateurs.
- The parts for A-clarinets are often easier and more pleasant to play in many of the pieces. However parts for B♭-clarinets are included for each piece.
- For bassoons and trombones original tenor or alto clef parts have been transposed into bass clef.
- Piano parts have been arranged so that they can be played by a good student or amateur.

A PRACTICAL GUIDE TO CHORAL CONDUCTING

by Bradley Ellingboe

___ VM18\$24.95

A Practical Guide to Choral Conducting was written especially for conductors who are still fairly new to the profession. Potential readers might have only recently been put in charge of a choir or choral class, but are not necessarily trained as a choral conductor. Others may find this suitable for use in an undergraduate or graduate choral conducting class. Still others may find insight that enhance their existing choral profession.

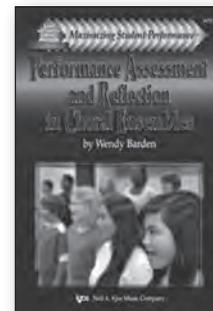

MAXIMIZING STUDENT PERFORMANCE

by Wendy Barden

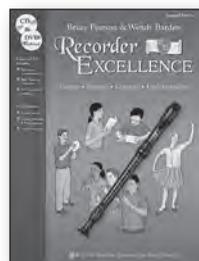

PERFORMANCE ASSESSMENT AND REFLECTION IN CHORAL ENSEMBLES

___ W70\$10.95

How is achievement - the choir's performance - usually assessed? By how well the ensemble performs at the concert, of course! This user-friendly resource discusses assessment, feedback, and reflection to improve both individual and ensemble performance. Included are seventeen duplicable forms to help you provide individual feedback and help students reflect on their work throughout the year - in rehearsals, following concerts, and at the end of the year.

MUSIC PRODUCTION

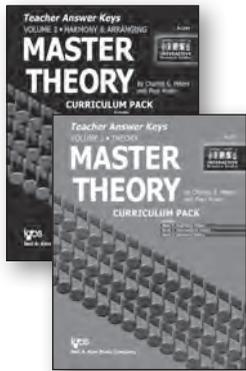

Produce This! Digital Music Production and Songwriting Workbook

by Mathew Lyons

- ___ L67 **Produce This!** 9.99

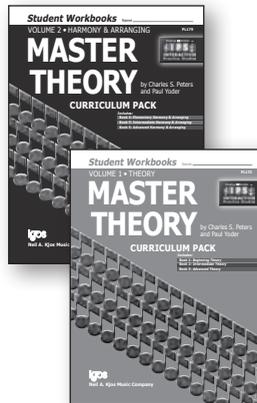

Recruitment and retention are vital to the health of any instrumental program. The key in today's world is reaching non-traditional music (NTM) students—those who don't participate in school music but instead perform and create it independently. How do we reach those students? Music Production! This workbook will give you and your students the tools to help unleash creative potential like never before. With **PRODUCE THIS!**, band educator Matthew Lyons provides a step-by-step 32 page workbook for producing today's music. From the genesis of an idea to a completed recording, each chapter offers a clear roadmap for writing a song using any Digital Audio Workstation (DAW). It's all here: from navigating your DAW... to creating rhythm, melody, harmony, and bass tracks...to adding lyrics...to recording live audio...and finally, to mixing and sharing.

THE REHEARSAL

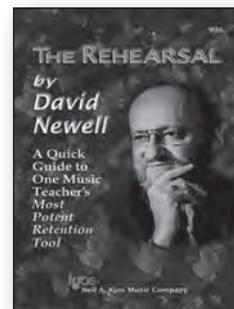

A QUICK GUIDE TO ONE MUSIC TEACHER'S MOST POTENT RETENTION TOOL

by David Newell

The **Rehearsal** is the music teacher's most powerful retention tool. Musically performed and well attended concerts, memorable trips, trophies, superior ratings at adjudicated events, the sense of camaraderie—all of these play important parts in student retention in our performance ensembles. But they are probably not the pivotal elements. Rather, what happens during each and every rehearsal is the master key that unlocks the box labeled "Student Retention."

Educator David Newell, author of the critically-acclaimed "Classroom Management in the Music Room" and "Teaching Rhythm," shares strategies that reveal how music teachers can help students make beautiful music during every rehearsal—not just during special events.

The Keith Snell Piano Series

The *Keith Snell Piano Series* presents the highest quality piano literature by leading composers of all musical periods in a graduated series of 11 levels. Each level consists of three volumes of repertoire (*Baroque & Classical; Romantic & 20th Century; Etudes*) carefully selected and graded for the steady and progressive development of musicianship and technique. If single volumes of repertoire are desired at each of the 11 levels, the *Essential Piano Repertoire* books are ideal. Recordings by Diane Hidy accompany each level and closely follow the editions as a practical performance example for students. A correlated series of theory and teacher's answer books (*Fundamentals of Piano Theory*), technique (*Scale Skills*), and sight reading (*Sight Reading: Piano Music for Sight Reading and Short Study*) ensures a well-balanced and complete curriculum for all students.

At the request of teachers, Keith Snell developed the *Beginning Piano Repertoire* series as an alternative to traditional methods, especially appropriate for leading teenagers and adults directly into the Snell Repertoire series. He recently added the four-book series *Progressive Piano Repertoire*, with contents organized in a progressive order of difficulty. Two *Favorite Piano Repertoire* books are large, spiral-bound compilations comprising the "best-of-the-best."

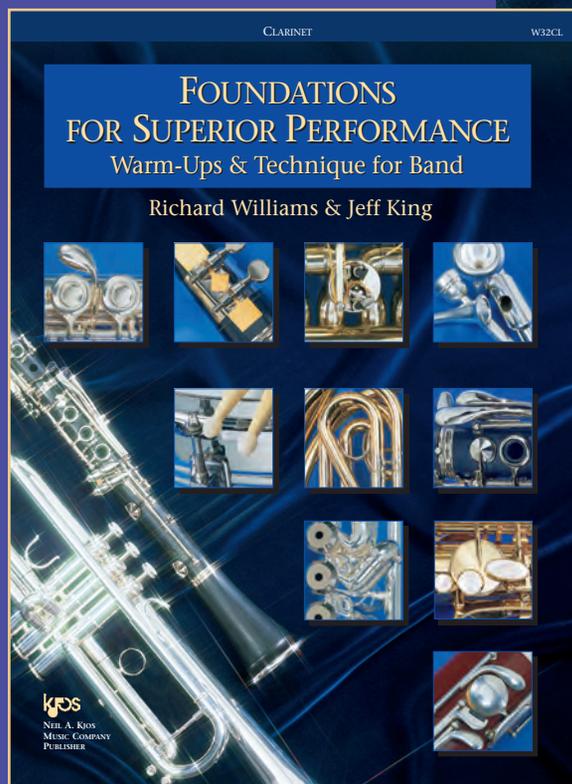

Carefully selected, carefully graded...the *Keith Snell Piano Series* allows teachers to get back to what they do best...Teach!

Take your band to the next level!
